GitHub: github.com/lakshyabhuker05 Mobile: +91 8295991511

SKILLS SUMMARY

Languages:	C/C++, JavaScript, HTML, CSS, Python
Frameworks & Libraries:	React.js, Next.js, Node.js
Databases:	MySQL, MongoDB
Developer Tools:	VS Code, Git, GitHub
Core Subjects:	Data Structures & Algorithms, OOPS, Database Management Systems, Operating Systems
Soft Skills:	Adaptability, Team Work, Problem Solving

PROJECTS

Recall — Personal Knowledge & Active Recall System | GitHub Mar 2026- Apr 2026

- Developed a full-stack knowledge platform for capturing, organizing, searching, and reviewing learning content.
- Implemented JWT authentication, password hashing, protected APIs, and MongoDB data persistence.
- Built an interactive dashboard with review queues, confidence tracking, topic health, and active-recall workflows.
- Designed a responsive React interface with animations, search, filtering, and reusable components.

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, REST APIs

Drone Delivery Management System — Delivery Operations Platform | GitHub Jun 2026 – Jul 2026

- Built a responsive drone delivery management system to organize delivery requests, drone assignments, order tracking, and delivery operations through a structured and centralized workflow.
- Engineered the core delivery-management workflow to handle order details, drone allocation, delivery status, and operational updates efficiently throughout the delivery process.
- Developed a user-friendly management interface for creating and monitoring deliveries, tracking order progress, and providing centralized visibility into ongoing delivery operations.

Tech Stack: C/C++, JavaScript, HTML, CSS

Contest Tracker System — Competitive Programming Contest Tracking Platform | GitHub Aug 2026- Sep 2026

- Developed a full-stack platform for tracking competitive programming contests, schedules, and participation data.
- Implemented a responsive React dashboard with upcoming contests, listings, filtering, and tracking features.
- Integrated frontend and backend services for discovering and monitoring coding contests.

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs

TRAINING

45-Day Summer Training in Data Structures & Algorithms Certificate Jun 2026 – Jul 2026

- Completed a structured 45-day training program focused on Data Structures & Algorithms, covering core concepts, implementation techniques, and problem-solving approaches.
- Practiced implementing and applying data structures and algorithms through programming exercises, strengthening logical reasoning and algorithmic problem-solving skills.
- Developed a stronger understanding of efficient problem-solving techniques through guided learning, hands-on coding practice, and analysis of different algorithmic approaches.

Tech Stack: C/C++, Data Structures & Algorithms

CERTIFICATIONS / CERTIFICATES

Programming Using C++ | Infosys SpringBoard Certificate Aug 2025
Data Structure and Algorithm | NeoColab (An NIIT Venture) Certificate Jun 2026
Object Oriented Programming | NeoColab (An NIIT Venture) Certificate Jun 2026

ACHIEVEMENTS

Solved [150]+ coding problems across platforms such as Leetcode and Codeforces, strengthening Data Structures & Algorithms and problem-solving skills.

EXTRACURRICULAR ACTIVITIES

Coding & Technical Activities —Participated in coding practice, technical events, and programming-related activities to strengthen problem-solving and development skills.

Volleyball & Athletics — Participated in volleyball and athletics developing teamwork, discipline, physical fitness, and competitive spirit.

EDUCATION

Lovely Professional University Phagwara, Punjab
BTech / Csc — CGPA: 7.13 Jun 2024 – Jun 2028

Prince Academy Sikar, Rajasthan
Senior Secondary (Class XII) — Percentage: 80 Mar 2023 – Mar 2024
